Business Hub

Managed Security Platform for Partners

The Business Hub is a powerful multi-tenant, cloud-based platform that allows MSPs and IT Service Providers to deliver layered security services to customers, protecting all aspects of their networks. With a unique combination of endpoint and network security, you can provide your customers with an unparalleled level of protection, all from within a central platform.

Monitor threats from a single dashboard

Configure notifications based on specific device actions and monitor from a centralized dashboard for full transparency into individual device issues as well as threats that might be spreading among connected devices.

Deploy enterprise-grade IT security services

Deliver a range of IT security services that provide complete, in-depth protection against all forms of malware and other cyberthreats – whether they originate from inside or outside the network via email, websites, or the Internet.

Connect securely to any managed device

Use our free remote IT tool to connect securely to any device with the Avast agent installed and remotely resolve issues, perform tasks, reboot computers, transfer files, and chat with users.

Features

Network Discovery with remote deployment

Easily discover your customers entire IT network and deploy Avast Business security services to all endpoints in minutes to keep their business safe.

Intuitive Dashboard

View all alerts at-a-glance, address issues, and get the information you need to make informed decisions, add services, and take speedy action to increase uptime, stability, and security.

Device and Policy Management

Equip your managed devices with the provided security policy templates that can be easily customized to fit your customer's needs. Administrators can configure global policies in minutes and assign it to all sites or customers - saving them time and resources. Any policy changes will automatically update on devices in real time, requiring less maintenance and making it easier to scale business operations.

Detailed Reports

Generate and schedule easy-to-read, detailed activity reports with the click of a button. View reports that include blocked threats, task lists, protected devices, patch statuses, and more.

Services

Next-Gen Antivirus

Multi-OS AV blocks cyberthreats from entering your network, protects against zero-day attacks, and identifies new threats.

Next-Gen Antivirus Pro

Get additional security with features including Data Shredder and server protection for Exchange and SharePoint servers.

User Management

Multiple users can be created to streamline collaboration. Invite your customers to the console to fully manage their endpoints or just as viewers with limited access.

Trials and Subscriptions

Easily manage trials and subscriptions for all customers, unleashing new revenue possibilities.

Notifications

Configure notifications on any security or network issues that need your attention, improving reaction times and limiting exposure. Receive instant email notifications related to outdated antivirus applications, extended device inactivity, and additional device updates.

Commands

Quickly apply commands across devices like scans, restarts, and more. Run commands automatically based on policy settings.

Next-Gen Antivirus Pro Plus

Get the full antivirus package with SecureLine VPN, Browser Cleanup, and Webcam Shield.

Patch Management

Stay ahead of vulnerabilities by identifying critical patches and easily deploying them across all endpoints from one dashboard.

Premium Remote Control

Connect securely to any device from any location to remotely resolve issues, perform tasks, reboot, transfer files, and chat with your users.

Cloud Backup

Keep data secure and ensure business continuity by protecting endpoint devices and servers with an automated backup process that is easy to deploy and manage from anywhere.

Secure Web Gateway (Coming Soon!)

About Avast Business

Avast delivers all-in-one cybersecurity solutions for today's modern workplace, providing total peace of mind. Avast provides integrated, 100% cloud-based endpoint and network security solutions for businesses and IT service providers. Backed by the largest, most globally dispersed threat detection network, the Avast Business security portfolio makes it easy and affordable to secure, manage, and monitor complex networks. Our easy-to-deploy cloud security solutions are built to offer maximum protection businesses can count on.
